Dear

We were looking at your account and noticed that we don't handle your disability insurance coverage. If you don't have this important coverage you should consider it.

Accidents and sickness affect people every day, hopefully they are not serious, but stop and think. What would you do if you were unable to work for an extended period?

Health insurance would pay for the medical expenses, but if you couldn't work how would the family budget fare? Could you maintain the house or rent payment and keep food on the table? Not to mention keeping the credit card, phone and utility bills up to date.

If you don't have some form of disability coverage, or think your current coverage needs to be updated, please give us a call for a quote on this important coverage

Sincerely,
